

How did I place on race night?

There are 3 rounds of motos each race night.

The example below shows how 4 children placed in the 3 motos;

1. Total points: add up the finishes from the 3 motos.
2. Overall finish: the child with the lowest total points gets the overall win.

	Moto #1	Moto #2	Moto #3	Total Points	Overall finish
Child A	1	2	1	4	1 st
Child B	3	3	4	10	3 rd
Child C	4	4	3	11	4 th
Child D	2	1	2	5	2 nd

All classes are awarded the points in the same way. If there happens to be a tie in points, the rider that finishes with the higher placing in the main is awarded the win.

If there are more than 8 riders in an age group, then it is called a **Transfer Moto**. The BMX Canada rule book outlines how Transfers are done. It will state on the top of the Moto sheet what the transfer is to the main: **Moto 8 and 9**

Transfer: 2 – 2 – combine 4

The Motos in question are Moto 8 and 9.

This means we take the **top 2** from Moto 8 in first two rounds , **top 2** from Moto 9 in first two round - then combine the remaining riders from Moto 8 and 9 and take the **top 4**.

These **top 8** riders then combine to race each other in the Main event and how they place in the main is how they place overall.
